

DIDSBURY PIONEER

Vol. XXXVIII, No. 4

DIDSBURY, ALBERTA, THURSDAY, JANUARY 29, 1931

\$2.00 per Year. 5 cents a copy

Annual Meeting and Nominations.

The annual meeting of the town and school district, will be held in the High School, on Friday night, when the auditor's and various other reports will be presented.

On Monday, February 2nd, a meeting will be held at the Secretary-Treasurer's office, to receive nominations for both council and school board. For the council, the office of mayor and three councilors will be open for election and three trustees, will be elected to the school board.

Didsbury Cow-Testing Assn.'s Annual Meet

The annual meeting of the Didsbury Cow-Testing Association was held in the Opera House on Saturday afternoon. About seventy interested farmers, and a sprinkling of ladies attended.

Mr. C. W. Gibbs was re-elected president, and Mr. H. A. Brennan will again carry on as secretary for the ensuing year. Mr. Harry J. Steckley was appointed delegate to the dairy convention to be held at Calgary, February 3rd, 4th, and 5th.

After the business meeting, Mr. R. Trimble, of the Dominion Livestock Branch, who has been doing the testing for the association, spoke on cow-testing, and the need for higher production in the herds as a means to cut down the cost of production.

Mr. Trimble showed on charts the relation between feeding and selling grain at present prices. He stated that the feed-cost per lb. of butterfat was about fifteen cents, and that the return from feeding would be from two to three times greater than the selling price of the grain.

Mr. Phillips, of the O.S.A. gave an appropriate talk on the feeding of dairy-cattle, his chief subject being field-grasses suitable to central Alberta. He also stressed the value of good sires in the dairy herd.

Miss King, also of the O.S.A. staff, spoke to the ladies on "Home Economics."

McCoys Celebrate Silver Wedding

Mr. and Mrs. Wm. McCoy entertained at a dinner-bridge on Friday evening, January 23rd, the occasion being the anniversary of their silver wedding.

The wedding-cake centred the table, which was decorated in silver, with roses in silver bud-vases.

On behalf of the guests, Mrs. E. G. Ranton read an address, and Mrs. J. L. Clarke presented the "Bride and Groom" with a silver tea service.

The guests included: Mrs. Geo. McCoy, and Mr. and Mrs. R. McCoy, of Carstairs; Mrs. Wm. Alexander; Dr. and Mrs. J. L. Clarke; Mr. and Mrs. Astell; Mr. and Mrs. Hilliard; Mr. and Mrs. Ranton; Mr. and Mrs. W. Thurlow; Mr. and Mrs. N. Clarke; Mr. and Mrs. W. A. Teskey and Mr. Wm. Spence.

St. Cyprian's Church Annual Meeting

The annual meeting of Saint Cyprian's Church took place in the Opera House on Friday evening last, there being a good attendance. Rev. W. J. Archer occupied the chair.

The financial statement of the church was presented by the warden, and Mrs. J. H. Lowrie presented the report of the W.A., which showed the work of the ladies had been very successful during the year. Mr. W. R. Hartley gave the report of the Sunday School.

The rector chose Mr. E. K. Pratt as his warden for the ensuing year. Mr. J. D. Thomas was elected as people's warden. The following were elected on the vestry: Messrs. Welch, Pitt, J. Rupp, J. H. Lowrie, J. E. Gooder, and W. R. Hartley.

After the meeting, a social evening was very much enjoyed, and an excellent supper was served by the ladies of the W.A.

During the evening, Mrs. Gulliver, president of the W.A. presented Mrs. Booker, the retiring president with a gift, as a recognition of her services.

LOCAL & GENERAL

Glance in our Coming Events section.

Mrs. Schulte, of Daysland, is visiting with her daughter, Mrs. J. Clark.

Mr. H. O. Tongum, spent the week-end with friends at Edmonton.

See Monte Blue in "Skin Deep" at the Opera House on Thursday, February 5th. An all-talking picture with a thousand thrills.

Don't forget the Saturday Night Dances in the Opera House. Lady 25c. Gentlemen, 25c. Bellamy Orchestra.

Didsbury Branch Canadian Legion will hold their general meeting on Saturday, Jan. 31st, 8 p.m. All members are requested to attend.

W. Monteith, watchmaker and jeweller, located at North End Saddlery (N. Nowak). Watches, clock, jewellery, and optical repairs.

Mr. Walter McManis, underwent a major operation, at the Didsbury Hospital last week. He is reported to be progressing favorably.

At the Opera House tonight, January 29th, is presented one of the war films, "Johnny's End." Don't fail to see this beautiful all-talking story of an angry war.

Dance at Community Hall on Friday, January 30th, under the auspices of the W. L. Bellamy Four-piece Orchestra. Admission: Gents, 75c. Ladies free. Lunch served.

Rev. Dr. Oliver, Moderator of the United Church of Canada, gave a message to the Canadian Club in Calgary last week. Mr. Hayes was present, and will give Dr. Oliver's message in the Knox United Church on Sunday evening.

Farmer's Meeting to discuss use of Commercial Fertilizers will be held in the Opera House, on February 6th, at 2 p.m. Dr. Mathur of the Consolidated Mining and Smelting Co., Trail B.C. will give a Lantern-Slide lecture showing the results of the past three years' experiments with Phosphate Fertilizers. Everybody welcome, no admission.

Chickens Hatched In January.

A hen stole for nest and hatched out a bunch of chickens this week, so reports Mr. W. Hardy, who lives three miles North West of town. Mr. Hardy stated that when doing his chores Monday morning, he noticed two little chicks run out from under one of the buildings, looking under the building he saw six more running around. He says they remain lively as if hatched in the summer.

Is Spring here? or will they get frozen toes?

High School Organize Literary Society

About three weeks prior to the holiday season, the High School student-body organized a Literary Society.

For temporary purposes only, an executive was appointed to prepare a short program. Although it offered little variety, due to the brief time allowed for preparation, a very pleasant hour was spent. A price-limit of fifteen cents was set for the gifts, which were afterwards sent to needy children.

With the opening of the new term, the students again convoked, with the idea of selecting permanent officers for the society. It was decided that for educational purposes this should take the form of an election. Two equal groups, "A's" and "B's" were chosen as opposing parties, and the remaining group, "C's" were left to be won by either side.

The "A's" and "B's" respectively held organization meetings, and nominated candidates for office. These candidates addressed a general meeting on Wednesday, January 21st. The speeches were interspersed by songs and yells from the enthusiastic parties.

The results of the voting, which took place on Thursday were as follows:

President: Dorothy Hunter. Vice-president: Jack Ranton. Sec. treas.: Dorothy Ranton. Editor for School Paper: Ernest Traub. Helen Brown and Alfred Brasso to sit with the Executive.

Without a doubt, there is a bright future for our Literary Society.

Coming Events

Dance tomorrow night (Friday) at Community Hall. Gents, 75c. Ladies free. Lunch served.

Dance at Elkton School on Wednesday, February 4th. Bellamy Orchestra.

Melvin "Go-Getters" Hand-times Dance at Melvin School, Friday, February 6th. Bellamy orchestra.

A dance, sponsored by the Sundra Local of the Alberta Teachers' Alliance will take place in Hamman Hall on Friday, February 6th. Good music. Everybody welcome.

The Canadian Legion, Didsbury Branch will hold a Valentine Dance in the Opera House on Friday, Feb. 13th. Special old time dances. Admission 50 cents each.

Prominent Farmer Dies Suddenly.

The sudden death of Mr. David Irwin occurred on Monday evening, at the Community Hall, while he was attending the annual meeting of the Didsbury East Local of the U.F.A.

Mr. Irwin, who had been a delegate to the U.F.A. Convention at Calgary last week, was giving his report, when he collapsed. He received before medical assistance could be obtained. The doctor pronounced his death to be caused by heart failure. Mr. Irwin was deeply interested in all farm movements and took an active part in the U.F.A. and livestock marketing association. He will be greatly missed by these associations.

The deceased was 60 years of age and was born in the north of Ireland, coming to Ontario as a child 52 years ago. He was married in Ontario to Mary Gibson, in 1900 and came to Alberta with his family in 1907. They first settled at Rawdonville, coming to Didsbury two years later and have since resided here. His wife predeceased him in 1918 and later in 1928 he married Mrs. Lily Davies.

He is survived by his wife; two sons, Rescoe and Walter; two daughters, Mrs. J. Devolin, and Grace Irwin, and four grandchildren all of whom reside in the Didsbury district.

The funeral service will be held in the Knox United Church on Thursday, January 29th at 3 p.m., and interment takes place in Didsbury Cemetery.

Obituary.

The funeral of the late E. C. Webster took place in the M.B.C. Church on Thursday afternoon last when Rev. A. Traub conducted the service. The pall-bearers, who all came from the same neighborhood in Michigan as Mr. Webster, were: Messrs. J. Adam, W. Adam, D. Leight, and W. Vernon, all of Didsbury, and J. Sutphin, and S. Adair, of Olds.

There was a large attendance of relatives and friends, and amongst those from a distance were: Mr. and Mrs. LeRoy Webster, Lacombe; Mr. and Mrs. Gordon Adam, Mr. and Mrs. Andrew Gibbs, and Mrs. H. Sinclair, all of Manson; Mr. and Mrs. E. Adam, of Calgary, and Mr. and Mrs. H. Huntley, of Arrowwood.

HEAD HURT?

WORK won't wait for a headache to wear off. Don't look for sympathy at such times, but get some Aspirin. It never fails.

Don't be a chronic sufferer from headaches, or any other pain. See a doctor and get at the cause. Meantime, don't play martyr. There's always quick comfort in Aspirin. It never does any harm. Isn't it foolish to suffer any needless pain? It may be only a simple headache, or it may be neuralgia or neuritis, Rheumatism, Lumbago. Aspirin is still the sensible thing to take. There is hardly any ache or pain these tablets can't relieve; they are a great comfort to women who suffer periodically; they are

always to be relied on for breaking up colds.

Buy the box that says Aspirin and has Genuine printed in red. Genuine Aspirin tablets do not depress the heart. All druggists.

ASPIRIN

TRADE-MARK REG.

Wheat.

Wheat, at the present time, bulks larger in the eyes of the people of Canada, in the east as well as in the west, than ever before. The word "wheat" is on everybody's tongue. It is the outstanding subject discussed by railway executives, bank presidents in their annual statements, manufacturers, wholesalers, statesmen and politicians great and small. If never before, the Canadian people have now awakened to the fact that wheat is the most potent factor in the commercial, economic, financial life of this Dominion; that it is the country's very life blood upon the flow of which its prosperity, if indeed, not its present existence depends.

The industries of Eastern Canada languish because western agriculture is in difficulty, severe difficulty. The east is beginning to remember, what perhaps it had forgotten, that in years past when its cities and towns were growing in population and wealth, when its factories were busy and working overtime, when new industries were being established and large additions to plant made to existing ones, were the years in which western Canada was prosperous. It was the enormous new and increasing purchasing power of the west that made eastern industry hum.

Now that western wheat is in the doldrums, a drag on the world's markets, which it is impossible to sell at a price that will even cover the costs of production, not to mention any profit to the producer, the whole country is suffering. This condition cannot long continue; it must change, and because this is so, because a way out must be found, and therefore will be found, western farmers can entertain hopes for the future.

Whatever happens to Canadian-grown wheat on the market, it still retains its pre-eminent quality. It remains the finest wheat in the world, and because this is so the present situation is all the more tragic. The outstanding quality and pre-eminence of western Canada's wheat was again demonstrated this year when once again the world's championship was won by an Alberta farmer.

It is twenty years since the wheat championship competition was inaugurated, and during those twenty years the three prairie provinces of Canada have carried off the championship no less than sixteen times. Saskatchewan winning it ten times, Alberta five times, and Manitoba once. In the other four years the honor went to one individual state across the line, Montana.

This is a wonderful record for western Canada. It speaks volumes not only for our climate and the fertility of our soil, but for the enterprise of our farmers, their patience and skill. It has meant the use of good seed; it has given an impulse to the industry of scientific cultivation; it has meant millions of dollars to hundreds of farmers whose names never appear in the prize-winning class, but who have been encouraged to adopt and follow right methods, and to sow only good, clean, registered seed in their fields.

It has added vigor to the fight against noxious weeds, insect pests, rust, and other factors operating against the production of the highest quality wheat. It has encouraged the scientists in their task of developing new and better varieties, earlier ripening varieties, frost and rust resistant strains. These things may, at the moment, seem of little account to hundreds of farmers who are making a real struggle to meet their obligations and find the necessities of life for themselves and their families. But the fact remains that the industry of agriculture in western Canada rests on a solid and enduring foundation; it is the superstructure involved in present production costs, transportation costs, marketing difficulties, general world conditions of over-production and loss of purchasing power which threaten the trouble of today less. These things can, must, and ultimately will be rectified.

Approve Federal Plan

Alberta Horse Breeders' Association Endorse Policy For Assistance To Livestock Members

Approval of plans announced by the federal minister of agriculture for advancement of the livestock industry by assisted distribution of purchased stock, was voiced in resolutions passed by the Alberta Provincial Horse Breeders' Association in annual convention at Edmonton. The proposal to purchase several of the best stallions of draft breeds and the revival of the bull-baiting policy were specially commended as well as extension of the thoroughbred horse station policy.

W. N. U. 1870

Hints To Grain Exhibitors

Advice In Respect To Entries At World's Grain Exhibition

Hints given to prospective grain exhibitors at the World's Grain Exhibition and Conference at Regina in 1932 by Cecil Tice, secretary of the British Columbia committee, include the following: (1) Exhibitors must reach Regina on or before March 1st, 1932. (2) Transportation charges must be prepaid. (3) All exhibits must bear the name of the variety. This is often omitted at fairs, causing needless confusion and loss of time; (4) Only one entry may be made in any one class, although exhibitors may enter in as many classes as desired; (5) Exhibitors may be taken from any year's crop.

Radios In Canada

Popularity Of Radio Is Increasing According To Federal License Bureau

The radio is becoming increasingly popular in Canada. In the first eight months of the fiscal year more licenses were taken out than in the preceding year.

The figures were: 1930-Eight months, 114,670 licenses.

1929-424,146 licenses.

There are still four months to go and officials of the radio department believe licenses may reach the total of 500,000. Each license costs \$1.00. Manitoba shows a greater increase than either of the other two prairie provinces. So far this year 27,929 licenses have been issued in Manitoba, against 26,419 last year. In Saskatchewan the figures for this year are 23,921, against 22,951 last year; in Alberta, 19,555, against 21,479.

Winnipeg records the greatest advance among the cities with 15,652 licensed so far this year, against 15,081 last year. The figures for Regina are 2,144, against 3,032; Saskatoon, 2,075, against 1,889; Moose Jaw, 1,685, against 1,672.

Discounts Russian Menace

Canadian Investigator Says He Thinks Soviets Are Sincere

Foreboding and sinister are the characteristic features of the Russian people in the economic and social experiments they are making, says Dr. A. G. Lockhead, agricultural bacteriologist of the Dominion Government Experimental Farm at Ottawa, following a visit to the Soviet Republic. "The Russians firmly believed what they are aiming at will give the greatest good to the greatest number," he affirmed. "They believe the rest of the world will, of necessity, follow their methods."

Dr. Lockhead was Canadian delegate to the second international congress of soil science at Leningrad and Moscow. Every line of scientific research appears to be encouraged in the Soviet Union, he says.

The recent unleashing by Russia of wheat, lumber and coal on world markets is essentially an effort to raise credit, rather than a deliberate part of a market-breaking scheme, Dr. Lockhead opines. In this connection, he believes the menace from the U.S.S.R. is not at present serious.

Fastest Warship Launched

Nothing Can Outdistance Destroyer Built By British Navy

The New York Times publishes the following special cable from London, England:

What is believed to be the fastest warship in the world has just completed her trials for the British navy, reaching a speed of 40 knots at times without pressing her machinery in any way.

This is the new destroyer Flotilla leader, "Codrington," 1,520 tons, completed last June at the Swan and Hunter shipyard in Glasgow.

Nothing in the new series have been produced to outdistance this British whippet, which with a full load could streak across the Atlantic in three and a half days if top speed could be maintained.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With no irritating cathartics at hand no child should suffer an hour from worms.

Planning Long Air Line

One of the longest airlines in the world, linking Berlin and Tokio, is a possibility, according to reports reaching here from the Japanese Aviation Bureau of the Ministry of Communications. The line as discussed now would be operated from Tokio to Hong Kong by the Japanese, over India by England, and the rest of the way by Germany.

Where Women Predominate

In Europe there are 18 million more women than men, according to a statistical calculation. Germany has 3,666,000 more women than men, France 2,993,000, and Russia 4,666,000. Portugal is declared to be a land where women form the highest proportion of the population.

Ties Of Empire

Ideal Has Never Been Stronger In The Hearts Of The People

"It is unthinkable that we should lose Canada and if the Dominion had her way there would be little danger," declared Sir William Crawford, president of the Publicity club of London, England, which discussed the question: "Shall we lose Canada?"

"At no time in the history of our country," said Sir William, "has the ideal of empire been stronger in the hearts of our people."

The meeting was addressed by P. W. Field, his majesty's senior trade commissioner in Canada and Newfoundland. Mr. Field said British exporters must expect increasing competition from Canadian producers in many trades and he showed that the United States exercised a great influence over the Canadian market. The Americans had established a thousand factories in the Dominion and in the face of this strenuous competition, only the most efficient business methods by British firms would enable Britain to remain in the field.

Mr. Field agreed that Canadian tariff changes which had come into operation since May would, undoubtedly, limit British business, but he believed it was still possible to obtain a large share of Canada's import trade by strengthening and revising methods.

Keep Douglas' Egyptian Liniment handy. A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

Restoration Of Chinese Credit

This Would Have a Most Favorable Effect On The Wheat Market

Rehabilitation of Chinese credit would have a decidedly favorable effect on the wheat market, J. I. McFarland, general manager of the Central Selling Agency of the Canadian Wheat Pool, stated in Ottawa. Mr. McFarland was commenting on reports from Washington that the British Government had entered into discussions looking toward re-establishment of credit in China.

Prior to the serious drop in the price of silver, Mr. McFarland said, China had become a large importer of Canadian grain.

Export Of Apples

Four steamers loaded 28,837 barrels of apples at the Port of Halifax for British and Continental markets during the week ended November 20th, bringing the exports for the year to 592,551 barrels. The latter total compares with 598,382 barrels for the corresponding period of last year.

Famous Sheep Farmer

Leaves For England

William Darnbrough Has Been In Saskatchewan Twenty-Six Years

Famous throughout the American continent as one of the Dominion's leading sheep farmers and renowned for his many victories in the grain classes at Toronto Royal and Chicago International shows, William Darnbrough, of Laura, Saskatchewan, has given up his farming interest there and left for his old home in Yorkshire, England. Mr. Darnbrough will return, however, for the World's Grain Show to be held in Regina in 1932.

Coming to Saskatchewan in 1904 without any knowledge of farming, Mr. Darnbrough quickly established a farm second to none in the district and he attained prominence as a sheep breeder. Since the war he has won an unbroken string of successes with his sheep and grain at the biggest shows on the continent. Albert Robbins, another prominent Laura farmer, has taken over the Darnbrough holdings.

Struggled With Asthma is the only experience that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellie's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unqualified remedy is worth many times its price to all who use it.

Praise For Sir Arthur Currie

"No words can express the gratitude felt by the British Legion to Sir Arthur Currie and his colleagues for their kindness to members of the British Legion and their families when they arrived as settlers in Canada," said the Earl of Jellicoe, head of the British Legion, when he spoke at a luncheon given Sir Arthur Currie by the Empire Service League in London, England.

Big Apple Shipment

The largest apple shipment yet forwarded from Nova Scotia to the European continent is on its way, consisting of 18,000 barrels destined for Antwerp, Belgium.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

A New Era Of Co-Operation Between Canada And U. S. In Air Service Development

A new era of co-operation between Canada and the United States in the development of our services began when plans for the inauguration of new passenger and air mail lines were announced at Ottawa. The announcement came following a conference between P. T. Coellien, assistant deputy postmaster-general of Canada and W. Irving Glover, assistant postmaster-general of the United States.

If the decisions reached by the two postal officials are approved by their respective governments, Canada will have a regular air service from coast to coast linked up at important points with the trans-continental air lines of the United States. In addition a north and south line from Alaska to Florida is contemplated.

The speeding up of trans-Atlantic mail services was also discussed, but on this point the preparations of the two countries are quite distinct. Canada will effect a saving of 48 hours in the present steamship service by ship to shore flights, while the United States is planning an all-air route to Europe from New York via Bermuda, the Azores, Lisbon, Portugal and through France to England.

The first link in an air line which will traverse the entire length and width of North America from Miami, Florida to Alaska, will be inaugurated shortly. It will run from Calgary to Miami and it will be possible to travel between the two points in 42 hours, a saving of 90 hours over present methods of communication. Eventually it is hoped to extend this route from Calgary north and eastward into Alaska by way of Fort McMurray and thence into Asia.

The first step in the programme has been taken with the definite decision to put into effect an aerial link between Winnipeg and St. Paul-Minneapolis.

While the details of the Winnipeg-St. Paul schedule were being worked out the officials were also discussing the more ambitious scheme to develop a route from Calgary, through Fort McMurray into Alaska, and thence into Asia. It was agreed that unless Canada and the United States joined in the development of the Asiatic route, a few years might see serious competition from Russia in that region. Russia is making considerable strides in aviation. Mr. Glover said, and 22,000 miles of flying is being done in that country daily.

Three years are regarded by the officials as sufficient time to bring the Asiatic service into being. In the meantime definite progress is being made. Mr. Coellien said, to set up aerial communication routes from Calgary to Vancouver. The route through the Rockies was not, he said, regarded as particularly difficult. As soon as communication is established to the coast by air, new links between Canada and the United States would be made at Lethbridge, Alta., and Vancouver. The Lethbridge link will be to Great Falls, Montana, while the western extremity of the United States system will be connected at Seattle from Vancouver.

The flights arranged between Winnipeg and St. Paul will complete the aerial chain between the prairies and the east. Mail for eastern Canada will be carried over United States air lines to Detroit and will there re-enter Canadian territory. While the schedule has not been definitely settled, Mr. Coellien said that mail from Calgary would reach Montreal in 40 hours, a saving of 38 hours. A saving of 40 hours would be effected in mail for Toronto.

Less Wheat In Britain

The British ministry of agriculture reports that England's wheat production for 1930 was 21,404,000 hundred-weight, which is 4,000,000 hundred-weight or 1 1/2 per cent less than last year's crop. Virtually all grain production was shown to be under last year's figures with barley dropping 26 per cent, and oats 12.

A glass factory in Alton, Ill., produces 300 tons of bottles a day, in more than 2,200 sizes and styles.

W. N. U. 1870

This Complex Life

Man, With All His Ingenuity, Cannot Solve Economic Problems

Man can take a drop of blood and tell the story of the owner's death by the discovery of the presence of a minute particle of poison gas; man can circle the earth without touching the ground; man can kill other men twenty miles away; man can weigh the stars of Heaven; man can drag oil from the bowels of the earth; man can compel an icy waterfall to cook his meals a hundred miles from the stream; man can print a million newspapers in an hour; man can breed the seeds out of oranges; man can dress a hen to lay three hundred and sixty-five eggs in a year; man can persuade dogs to smoke pipes and sea lions to play guitars. Man, in other words, is quite an ingenious and remarkable package of physical and mental newspapers.

When this astonishing person, however, is confronted with one problem, he retires, defeated, to his hut. Show him six men without money and six boxes of food belonging to men who cannot use it, but who want money for it, and ask him how the six hungry men can be put in possession of the six surplus loaves, and watch him sweat! It is then that man attends conferences, and appoints committees and holds elections, and makes speeches and cries out that a crisis is upon him, and does a score of useless things, and then retires, defeated, to his hut, leaving in the shivering twilight the task of the six hungry men and the six unapproachable loaves. — The Western Producer.

Canadian Farm Loan Board

About Seven Million Dollars Disbursed To Farmers In Six Provinces

At the end of the present fiscal year on March 31st next, when the organization will have been functioning a little less than two years, the Canadian Farm Loan Board will have disbursed nearly \$7,000,000 in loans to farmers in six provinces of the Dominion, according to Dr. J. D. McLean, chairman of the Board. Up to the present the average loan has been a little over \$2,000 and it is pointed out by Dr. McLean that back of the \$4,428,000 loaned up to the end of September, the Government has securities in the form of lands and buildings valued at about \$16,000,000.

Western Canada Turkey Show

The first Western Canada All-Turkey Show, held at Duncan, B.C., the other day, was a marked success, there being several hundred people present.

Eskimo Maid Is Crowned Beauty Of Arctic Circle

Enosiaik, 24-year-old brunette, is the reigning beauty of the Arctic. Andrew Brown, the big face and figure man of the north, selected this brown-eyed, high-nosed Eskimo girl from an entry of two dozen, in the first beauty contest ever held inside the Arctic circle.

From Baker Lake, little trading post on Cleghorn Inlet, just a thousand miles north of Winnipeg, came word of Enosiaik's triumph. "Shining Star" her name means and proudly, for the first time in her life, she can survey her prize-winning features. A mirror was her reward, the first she has ever owned.

Brown, who organized the contest, declares Enosiaik the most beautiful Eskimo lady he has ever seen. She lives not far from Baker Lake. — Photo Canadian National Railways.

Place Order For Equipment

C.P.R. Lets Contracts For Both Passenger and Freight Cars

Orders have been placed by the Canadian Pacific Railway for the construction of 55 passenger cars and 425 freight and service units, it was announced at Montreal.

The Canadian Car and Foundry Company will build ten baggage and express cars and the steel frames of 45 other passenger cars, interiors of which will be finished in the company's Angus shops.

Forty-five gondolas and 35 dump cars will be built by the Canadian Car and Foundry Company, while 250 refrigerator cars will be constructed by the National Steel Car Company and 100 flat cars by the Eastern Car Company.

In addition to the above, three snow-plows and 25 tank cars will be constructed by the company in its own shops.

Fertilizer Plant

Good progress is being made in connection with the fertilizer plant of the Consolidated Mining and Smelting Corporation, Ltd., at Warfield, B.C. Some of the buildings are now nearly completed and in one or two cases, machinery is already being installed.

Estimated Age Of The Earth Is Advanced From Time To Time As Scientific Knowledge Increases

Complete Sheep Survey

Economic Survey Of Sheep Raising Industry Of Western Canada

Return to Ottawa of Lawrence E. Kindt, of the economics branch of the Department of Agriculture, marks completion of the field work in the economic survey of the sheep raising industry in Western Canada which is being carried out in co-operation with the experimental farms branch.

Mr. Kindt has visited ranches in southwestern Saskatchewan, Alberta and the interior of British Columbia. Complete records were obtained from 140 representative ranching outfits for the year 1929 and 14 for the current year.

Real work of the survey — the studying of facts and figures secured by observation and contact in the field and preparing conclusions therefrom — will now start and it will take two or three months to carry out the phases.

To Study Economic Conditions

Suggestion Made That National Research Council Undertake Work

The suggestion that a committee of the National Research Council study national and international aspects of matters having a bearing on prevailing depressed economic conditions was held out recently by Tom Moore, president of the Trades and Labor Congress of Canada. In an address to an Ottawa Service club the labor union leader remarked that the Dominion is without a co-ordinated authority of this sort. In this regard it was important that the country keep abreast of the times.

Ayrshire Breeders' Association

Secretary Of Canadian Organization Gives Report For November

The secretary of the Canadian Ayrshire Breeders' Association reports that during the period from November 1st to November 25th, he received 81 reports of cows and heifers that qualified in the R.O.P. — 35 in the 365-day division and 46 in the Honor Roll or 365-day division. In the former, 15 qualified in the mature class; five in the four-year-old class; six in the three-year-old class and nine in the two-year-old class. Twenty-eight of the records were made on two milkings a day.

British Columbia Tenatoes

Twenty-three thousand dollars, representing the proceeds of this year's tomato crop in the Oliver section of British Columbia, were distributed to growers by the Dominion Canners Limited. The average production was 7 1/2 tons to the acre, for which the growers received \$17.50 per ton.

The estimated age of the earth has been growing at a shocking rate ever since geology became a science. In 1860, John Phillips placed the age of the globe at 38,000,000 to 50,000,000 years. Twenty years ago his highest figure had been considerably enlarged by geologists. But the end was not yet. Radium was discovered and science learned that this element breaks up at a definite rate that is measurable. Physicists observed the rate of disintegration in various rocks and multiplied the previous estimates by ten.

When this venerable sphere reached an age estimated at no less than 500,000,000 years, Prof. Louis V. Pirsson remarked: "Truly there is now an embarrassing richness of time!" But this did not stop science from inflicting further penalty upon Mother Earth. The latest estimate of time since a passing star tore the nucleus of the earth from the side of the sun is 2,000,000,000 years. This figure used by astronomers is now substantiated by Prof. Alois F. Kovarik of the U. S. physics department. Prof. Kovarik's measurements of the constant disintegration of radioactive elements in a piece of uraninite indicates an age of 1,832,000,000 years.

Many geological "time clocks" have been used to estimate the longevity of this planet. One favorite measuring stick is the rock strata that are exposed in such gorges as the Grand Canyon of the Colorado. The degree of evolution attained by fossils found in some of these strata also furnishes evidence. But the sequence of rock formation is frequently broken, and it is impossible to determine how much time has elapsed between the formation of successive layers. Geology postulates that most of the earth's surface has been under the sea a number of times, and it is probable that some millions of years would elapse from one inundation to another.

For measurement of recent time the rate of erosion is useful. For example, the average level of the United States is being lowered at the rate of one foot in about 7,000 years. On this basis it is estimated that 15,000,000 years would be required to reduce the continent to sea level by erosion if the upheavals by which mountains are made were stopped.

The layman is not much interested in these figures, or in the technical processes by which they are worked out. But he may find some comfort in the fact that the earth is not a recent formation, and that its present form will probably be modified but little in the next million years. No one knows how long life has been on the earth, but, of course, the life of man is only an infinitesimal span in comparison with the length of time since this sphere came into being. The important thing seems to be that man, now that he is here, is determined to stick with the old globe as long as it continues spinning. — Washington Post.

Good wishes also come home to roost.

India uses 17 different calendars, all recognized by the governments.

OAK BAY GOLF COURSE

The Oak Bay golf course on the sunbathed southern tip of Vancouver Island, which will become the center of interest for western Canadian golf fans when the annual Mid-winter Golf Tournament for the E. W. Beatty Trophy takes place February 23-28 inclusive. Offsea breezes, rock hazards and tricky mangle shots tend to make this course beside the Straits, one of the sportiest in Canada. Inset is Harold Lineham, a 3 handicap man, last year's winner of the Beatty Trophy, playing over the Colwood Course, and who this year will defend his title under vastly different conditions.

Wife: "If I had to go away for some weeks would you be lonely?" Husband: "Not at all!" Wife: "Good, then I won't go!" — Montague, Charles.

**DATE IS FIXED FOR
FORMAL OPENING OF
SESSION AT OTTAWA**

OTTAWA—Thursday, March 5, has been tentatively fixed by the Government for the opening of what is expected to be one of the most important sessions in the history of Parliament. There is a possibility that delay of a week may be occasioned by inability to get the legislative program in shape, but this is not considered likely.

The program is now well determined but in many instances the details of its application remain to be worked out. The most laborious task is preparation of customs schedules in conformity with the Prime Minister's promise of complete tariff revision. Exhaustive study of every branch of every industry is a necessary forerunner of action for the pledge is that there must be no exploitation of the consumer under the guise of essential protection.

In applying safeguards under this pledge the Government has at work a staff of statisticians at Ottawa, with representatives throughout the country, checking and rechecking wholesale and retail prices before and since the tariff revision of last session. Thus far only two instances have been disclosed in which industries appeared to be taking advantage of the tariff to boost prices and in these two the protection was withdrawn.

There is concerted effort on behalf of manufacturers to secure new increases on perhaps half of the 1,200 items of the tariff. Every one of these has to be subjected to a careful study. At the same time it is recognized that unorganized producers of goods in other schedules really are as much, if not more, in need of assistance than are the organized forces. It is the duty of the Government to watch their interests if there is to be a balanced readjustment of tariffs.

Staffs are also working in preparation for the adjourned Imperial Conference which will meet in Ottawa, probably next fall. Incidentally, Premier Scullin's announcement on his return to Australia that closer Imperial economic unity is assured coming finds enthusiastic endorsement among Mr. Bennett's colleagues. The latter insist that the Macdonald Government's suggested quota purchasing, for what was not rejected, that it could not be reduced to a workable formula in time for the London Conference, but is likely to be presented in detail at Ottawa.

LOCAL & GENERAL

Mr. and Mrs. E. G. Ranton, Mr. H. O. Tonjun and Miss May Royds, drove to Calgary on Wednesday.

Mr. Ross Ford was the winner of the Medicine Cabinet in the Hockey Club drawing on Saturday last.

Mrs. A. E. Kennis and daughter, Miss Aileen, of Calgary, visited with Mr. and Mrs. W. J. Fulkert, on Sunday.

Mrs. D. Sinclair, and little daughter left Thursday for Ontario, where Mrs. Sinclair's father lies seriously ill.

The regular meeting of I.O.D.E. was held at the home of Mrs. H. C. Liesemer, on Monday evening. Nomination of officers for the ensuing year was held.

On Wednesday evening, Mr. and Mrs. Bruce Parker entertained a number of friends at cards, five tables being in play. Prizes were won by Mrs. Phillipson, Mrs. Lawson, Dr. Evans and C. S. Mortimer.

On Monday evening, Jan. 26th the Intermediate League of the Evangelical Church met at the home of Mrs. Whiglesworth. After the devotional and business meeting the members played crokinole, a game which was enjoyed by all. A dainty lunch was then served and the party broke up.

Rev. W. W. Kruger, Superintendent of Evangelical Missions, is expected to visit this district over the coming week-end. He will accompany the local pastor, H. E. Russell to Sunnyside for a Sunday morning service. Westcott in the afternoon and Didsbury in the evening. The Lords Supper will be observed at each service.

The Rose Petal Class of Evangelical Church met at the home of Mrs. J. R. Cunningham on Wednesday night, Jan. 21st for the election of officers for the coming year. The following officers were elected: President, Beth Whiglesworth; Vice President, Conny Hoegstedt; Rec. Sec., Ella Whiglesworth; Fin. Sec., Dorothy Webster; Sec. Treas., Ruth Gabel; Games committee, Mrs. Cunningham and Lena Hilsberg. After the business meeting a dainty lunch was served.

In keeping with Evangelical custom the Women's Missionary Society of the Evangelical Church is at present observing the Annual 8-12-13-14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56-57-58-59-60-61-62-63-64-65-66-67-68-69-70-71-72-73-74-75-76-77-78-79-80-81-82-83-84-85-86-87-88-89-90-91-92-93-94-95-96-97-98-99-100-101-102-103-104-105-106-107-108-109-110-111-112-113-114-115-116-117-118-119-120-121-122-123-124-125-126-127-128-129-130-131-132-133-134-135-136-137-138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-323-324-325-326-327-328-329-330-331-332-333-334-335-336-337-338-339-340-341-342-343-344-345-346-347-348-349-350-351-352-353-354-355-356-357-358-359-360-361-362-363-364-365-366-367-368-369-370-371-372-373-374-375-376-377-378-379-380-381-382-383-384-385-386-387-388-389-390-391-392-393-394-395-396-397-398-399-400-401-402-403-404-405-406-407-408-409-410-411-412-413-414-415-416-417-418-419-420-421-422-423-424-425-426-427-428-429-430-431-432-433-434-435-436-437-438-439-440-441-442-443-444-445-446-447-448-449-450-451-452-453-454-455-456-457-458-459-460-461-462-463-464-465-466-467-468-469-470-471-472-473-474-475-476-477-478-479-480-481-482-483-484-485-486-487-488-489-490-491-492-493-494-495-496-497-498-499-500-501-502-503-504-505-506-507-508-509-510-511-512-513-514-515-516-517-518-519-520-521-522-523-524-525-526-527-528-529-530-531-532-533-534-535-536-537-538-539-540-541-542-543-544-545-546-547-548-549-550-551-552-553-554-555-556-557-558-559-560-561-562-563-564-565-566-567-568-569-570-571-572-573-574-575-576-577-578-579-580-581-582-583-584-585-586-587-588-589-590-591-592-593-594-595-596-597-598-599-600-601-602-603-604-605-606-607-608-609-610-611-612-613-614-615-616-617-618-619-620-621-622-623-624-625-626-627-628-629-630-631-632-633-634-635-636-637-638-639-640-641-642-643-644-645-646-647-648-649-650-651-652-653-654-655-656-657-658-659-660-661-662-663-664-665-666-667-668-669-670-671-672-673-674-675-676-677-678-679-680-681-682-683-684-685-686-687-688-689-690-691-692-693-694-695-696-697-698-699-700-701-702-703-704-705-706-707-708-709-710-711-712-713-714-715-716-717-718-719-720-721-722-723-724-725-726-727-728-729-730-731-732-733-734-735-736-737-738-739-740-741-742-743-744-745-746-747-748-749-750-751-752-753-754-755-756-757-758-759-760-761-762-763-764-765-766-767-768-769-770-771-772-773-774-775-776-777-778-779-780-781-782-783-784-785-786-787-788-789-790-791-792-793-794-795-796-797-798-799-800-801-802-803-804-805-806-807-808-809-810-811-812-813-814-815-816-817-818-819-820-821-822-823-824-825-826-827-828-829-830-831-832-833-834-835-836-837-838-839-840-841-842-843-844-845-846-847-848-849-850-851-852-853-854-855-856-857-858-859-860-861-862-863-864-865-866-867-868-869-870-871-872-873-874-875-876-877-878-879-880-881-882-883-884-885-886-887-888-889-890-891-892-893-894-895-896-897-898-899-900-901-902-903-904-905-906-907-908-909-910-911-912-913-914-915-916-917-918-919-920-921-922-923-924-925-926-927-928-929-930-931-932-933-934-935-936-937-938-939-940-941-942-943-944-945-946-947-948-949-950-951-952-953-954-955-956-957-958-959-960-961-962-963-964-965-966-967-968-969-970-971-972-973-974-975-976-977-978-979-980-981-982-983-984-985-986-987-988-989-990-991-992-993-994-995-996-997-998-999-1000-1001-1002-1003-1004-1005-1006-1007-1008-1009-1010-1011-1012-1013-1014-1015-1016-1017-1018-1019-1020-1021-1022-1023-1024-1025-1026-1027-1028-1029-1030-1031-1032-1033-1034-1035-1036-1037-1038-1039-1040-1041-1042-1043-1044-1045-1046-1047-1048-1049-1050-1051-1052-1053-1054-1055-1056-1057-1058-1059-1060-1061-1062-1063-1064-1065-1066-1067-1068-1069-1070-1071-1072-1073-1074-1075-1076-1077-1078-1079-1080-1081-1082-1083-1084-1085-1086-1087-1088-1089-1090-1091-1092-1093-1094-1095-1096-1097-1098-1099-1100-1101-1102-1103-1104-1105-1106-1107-1108-1109-1110-1111-1112-1113-1114-1115-1116-1117-1118-1119-1120-1121-1122-1123-1124-1125-1126-1127-1128-1129-1130-1131-1132-1133-1134-1135-1136-1137-1138-1139-1140-1141-1142-1143-1144-1145-1146-1147-1148-1149-1150-1151-1152-1153-1154-1155-1156-1157-1158-1159-1160-1161-1162-1163-1164-1165-1166-1167-1168-1169-1170-1171-1172-1173-1174-1175-1176-1177-1178-1179-1180-1181-1182-1183-1184-1185-1186-1187-1188-1189-1190-1191-1192-1193-1194-1195-1196-1197-1198-1199-1200-1201-1202-1203-1204-1205-1206-1207-1208-1209-1210-1211-1212-1213-1214-1215-1216-1217-1218-1219-1220-1221-1222-1223-1224-1225-1226 4th Sunday, Evensong, 7:30 p.m.

HOCKEY

Didsbury Heads Hockey League

Didsbury retained their lead of the championship of the Calgary Intermediate League by defeating the Calgary Hornets 3-2 on Saturday night. Didsbury have now lost only one defeat in league games this season.

The ice was in good shape, and both teams played the fastest game seen here this season. Didsbury took the lead early on, when Boucock landed a clever shot into the net. Rankin equalized for Calgary seven minutes later with a tricky play, going clean through the Didsbury team. Johnson, of Didsbury, and Nelson, of Calgary both got time off for slashing.

The second period saw the Hornets pressing. Kells missed the net, Stauffer making a brilliant save on the rebound. Cook was working hard, and after five minutes was rewarded when his shot from the baseline evaded Harlie. Hornets lived up to their name, and swarmed around, but Stauffer was unbeatable during this period.

After four minutes in the last stanza, Negler came down and took a long shot, which Stauffer never saw. With the score even, the local boys worked hard, and the fans were treated to some exciting hockey. Boucock made a wonderful attempt at goal, but was pulled down in the mouth of the net, one of the Calgary boys being sent to the cooler for the offence. Johnson followed him for slashing, leaving with teams short-handed. Cook came down, and beat the defence, but his shot went wide. Robinson, however, skated in and took the rebound, landing the puck into the net for the final and winning goal.

Line-ups:
Didsbury—Stauffer, goal; Boucock and Hardy, defence; Cook, Johnson, Robinson, McCoy, Hugel, and Liesemer, forwards.
Hornets—Harlie, goal; Rankin and Woodruff, defence; Evans, Nelson, Kells, Rogers, McCullough, Negler, and McGregor, forwards.

Didsbury Canadiens Take Revenge.

On their home ice, the Canadiens got the best of Bowden, by a score of 6-3.

The ice was soft and the game opened sluggish, but after about seven minutes, the boys got going and Robinson gave the locals the first goal and Grossweller on an assist from Crocker, also found the net.

Early in the second period, Hugel and Robinson both scored and Melburn got Bowden's first goal at 13 minutes. A minute later, Gorder found the net for the local boys.

In the last period, Bowden tightened up and landed in two goals. Just as the bell rang, Gooder made another score for the locals, making the final score 6-3 in favor of Didsbury.

Didsbury team: Stauffer, Hardy, G. Geiger, Robinson, Hugel, Gorder, Currie, Grossweller, L. Berscht, C. Geiger.

Next Saturday night's game with Calgary Monarchs will be the deciding game. If Didsbury win, they will head the league. The teams in second and third place play off, and the winners play the leading team for the championship.

Attendances at the games played here have increased, but still larger attendance is needed to make hockey a real success.

CARD OF THANKS

Mrs. E. Webster and family wish to thank their friends and neighbors for the kindness and sympathy shown to them during the illness, and at the time of the death of their loved one. Also to those who contributed flowers, loaned cars, or in any way helped during their recent sad bereavement.

CURLING

On Monday evening, two rinks went to Calgary to try and get the McDonald Cup, but failed in the attempt. The games were played at the North Hill Rink.

McCoy's rink met defeat at the hands of Ray, by 21-12. The ice was tricky and the locals could not get going until the game was half over, at one time being down 19-1. From then on they had the best of it, holding their opponents down to 2, while they made 11. Final count being 21-12.

Cook's rink had the better of Crocker, all the way and kept in the lead throughout the game, winning up with a score of 16-13.

After the game, the visitors were entertained to supper at the Club Cafe.

The Didsbury rinks were: McCoy, ship; Helmer, Pitt, and Edwards.
Cook, ship; Teskey, H. Lee, and Kaufman.

Tonight (Thursday) two rinks go to Three Hills to play a friendly game with two rinks of that town.

Here and There

As a result of the recent flood, everything covered by water, such as crops, etc., were given first place by Sir William Dewart, M.P., F.R.C.S., interviewed recently. A Lake Louise where he resided after attending the national convention of members of the British Medical Association held last month at Winnipeg.

A note of confidence and sincere optimism in the business of Canada's economic position at the present time and both in her future development was sounded by E. W. Beatty, chairman and president of the Canadian Pacific Railway, at the banquet given recently at Saint John by the Board of Trade of that city in celebration of the first sailing of the Princess Helene, new C.P.R. coastal steamer, on the Saint John-Bahia route. Mr. Beatty said he hoped to see a second boat run alongside the Princess Helene in the not distant future.

The Secret of Co-operative Marketing, Is Volume

Each individual head of stock has a direct influence, not only in the market, but in the shipping costs.

I intend to visit every producer of livestock in the Didsbury district, but if any producer having stock ready for shipment, will let me know, I will see their stock, and give all the information I can, regarding prices and cost of shipment.

Give us the volume, and we will reduce the shipping charges.

See me at the stockyards, Tuesdays and Wednesdays, or phone (Monday evenings) 84.

FIVE AGES OF MAN

"There are very few masters, I am sorry to say, that I am really quite sure about," said the man of fifty.
"What I don't know isn't worth knowing," said the young man of twenty.
"Well, anyway, I do know my own trade from A to Z," said the man of thirty-five.

Larger 1931 Pontiac Has Many New Features

A wide number of engineering advances are seen in the improved 1931 Pontiac. The longer wheelbase of 112 inches lends itself to more beautiful body proportions and has permitted the designer of a larger, lower appearing automobile. Above are shown the standard coupe and

four door sedan models. These characteristically display the exceptional advances in styling. The chrome-plated screen conceals and protects the radiator core. A curved fender tie-bar supports the chrome-plated head lamps. Added passenger comfort has been at-

tained through the larger, roomier Fisher bodies and a better ventilation development. The whole body of the new car is practically cushioned on rubber. The 1931 Pontiac is being offered for less than the price at which any previous Pontiac was introduced.

WORLD HAPPENINGS BRIEFLY TOLD

E. C. Miville, secretary to the governor-general of Canada, will proceed to India with Lord Willington to his new post.

World-wide reduction of armaments as an obligation under the terms of the Treaty of Versailles has been urged by the Carnegie endowment for international peace.

In a recent month automobiles registered in England numbered 17,846, an increase of 725 over the corresponding month of the previous year.

A man had a horse in a 15,000 meter race at Temuco, Chile. The victor was Felix Savaderra, an Argentinean Indian. He led the horse by 100 meters at the finish.

Dr. Arthur Torrance, of London, England, fellow of the Royal Society of Great Britain, has announced plans for an expedition in February to Africa, in which he said he hoped to determine the origin of the race.

An official return just issued shows that the majority of the 320 pilots attached to the Port of Spain, England, had net average incomes approaching, or more than, £1,000 during 1929.

Professor Werner Brochardt, with a European assistant, fell into the crater of the volcano Atropi in Sumatra at the moment that it became suddenly eruptive, and perished in the boiling lava.

Michael Finimerty, 104 years of age, died at Duncan, B.C., December 20. He was one of British Columbia's pioneers, having resided in the province for 57 years, the greater part of which was spent on Vancouver Island.

Twenty-six thousand one-pound cans of freshly packed salmon were donated to Seattle's needy citizens as a general relief program was launched there to aid the destitute and unemployed. The salmon—13 tons of it—was donated by salmon packers and distributed by welfare organizations and institutions.

Novel Type Of Vehicle

Can Run As Omnibus On Rubber Tires Or On Railways

A novel type of vehicle adaptable for either road or rail, which is to be tested within the next few weeks near London, England, may revolutionize transport methods.

It is manufactured by a Huddersfield firm of commercial vehicle makers.

Whilst on the road it resembles an omnibus and runs on rubber tires. In 30 seconds railway carriage wheels can be fitted, and it will travel on the track at 60 miles an hour.

The London, Midland and Scottish Railway Company are co-operating with the firm in the tests.

Berlin-Moscow Air Service

The Berlin-Moscow and Berlin-Leningrad daily air service has closed down until next spring. During their operation 2,860 passengers were carried, 27,145 kilograms of mail and 60,000 kilograms of freight, an increase over the previous year of 12 per cent in passengers, 80 per cent in mail, but a decrease of 25 per cent in freight.

Tree Plantation Inspections

The inspectors of tree plantations sent out from the Dominion Forest Nursery Station, maintained by the forest service of the Department of the Interior, at Indian Head, Saskatchewan, made 13,305 inspections during the 1919 season.

"Why didn't you receive me on January 1st?"

"I was in my bath when you called."

"No, I am speaking of this year!"

—Journal Amusant, Paris.

You Never Can Tell

No Matter How Badly You Feel You May Be Able To Fool The Doctors

The death has taken place of William McQuhane, an Irishman, at the age of 93, who retired from the Indian civil service in 1870, on the advice of his doctor that his health would not stand the strain of serious work.

There is a solicitor named James Underhill, of Wolverhampton, England, now in his 98th year, who, seventy-five years ago, was refused insurance of any kind. Mr. Underhill rode a bicycle until he was 83, played the flute in public at 90, survived an attack of pneumonia the same year, broke a leg and made a good recovery at the age of 91, and up to the present year transacted his business, sometimes signing documents at the rate of one hundred an hour.

A layman has to place reliance on what his doctor tells him. But these cases just show that even if that worthy hints you have one foot in the grave, there may be a few good kicks left in you yet.

GAY YOUTH

All Tingy models are created and sketched in Paris and the patterns are made in New York.

What bright young thing of school-girl age does not revel in brilliant color? Nary a one!

Here is something to cheer the heart of a young lady. It is a model youthful and dashing in cut and color, and includes at the same time a great deal of charm. Soviet wool marocain or crepeella made the original. The collar and cuffs were of very pale beige, almost cream; crepe de chine (any washing silk would be suitable), while the bodice was beige spotted scarlet.

Similar schemes in navy and white, green and white or beige, blue and red, etc., would be smart. Other modish and suitable materials include silk marocain, heavy crepe de chine, fine woolen reps, chambray, jerseys, etc.

This pattern may be obtained in sizes 8 to 14. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Inter-Empire Trade

Reference Made In London, England, To Conference To Be Held At Ottawa

Asked in the British House of Commons about the British government's intentions in regard to the subject of Empire reciprocal tariff preferences and the Ottawa economic conference next year, J. H. Thomas, secretary for the Dominions, declared the government was taking further steps to study the problem of closer economic co-operation within the Empire.

Regarding the scope of the Ottawa conference, Mr. Thomas invited the House's attention to the resolution recommended to the last Imperial conference by the heads of delegations, dealing with the preparations for the Ottawa conference. This set forth that while matters left over by the Imperial conference would be dealt with at Ottawa, the Ottawa conference would not be limited to such subjects.

Will Grow More Wheat

Soviet Russia Contemplates Increasing Wheat Acreage

The United States Department of Agriculture was informed that Soviet Russia contemplates an increase of 10 per cent, in her wheat acreage to be seeded next spring above this year's total.

The foreign agricultural information office at Berlin advised that the present intentions of Russia, called for seeding \$18,807,000 acres.

The acreage sown in Prussia and Germany up to the early part of December was reported as 6.6 per cent, greater than a year ago; but a decrease of 10.2 per cent, was noted in Germany's rye acreage.

Crop Insurance

New Legislature To Be Introduced In The Saskatchewan House

Legislation to empower companies that so desire, to issue crop insurance along the line of hail insurance, will be introduced at the coming session of the Saskatchewan legislative assembly.

Announcement of this effect was made by Hon. J. F. Bryan, K.C., minister in charge of the Saskatchewan Insurance act recently. Crop insurance has been widely discussed by the farmers of the province and has led to the government move.

Sand which can be used in making brown and amber glass is obtained from the Pacific Coast, but for white glass sand is still chiefly imported from Belgium.

Europe's Mysterious Fog

Scientists Are Busy Trying To Solve Latest Problem

The mysterious fog of death which spread over western Europe brings a new disney to a continent which has troubles enough and to spare. It may well arouse the apprehension and engages the thought of the world. If it cannot be traced to some definite and reasonable source, this creeping wrath that clutches at men's throats without warning is a menace from which even a separating ocean may not spare other lands.

Prof. J. B. S. Haldane, eminent among British scientists, is quoted as likening it to the black death which, in the fourteenth century, swept from the far east over Europe, numbering its victims throughout the world in the tens of millions. In London, England, more than 100,000 fell before it.

This plague was so named because of the appearance of dark spots on the bodies of those who succumbed, resulting from the effusion of blood subcutaneously. It was marked in its symptoms by the swelling of glands, headache, vertigo, pains throughout the body, and convulsions. One authority says that on its first appearance in Europe death followed upon effusion of blood and affection of the lungs before the other characteristics appeared.

Descriptions of the fatal visitation which has occasioned a reign of terror in Belgium and adjoining countries corresponds, so far as we have yet learned, at only one point with that of the fourteenth century—the attack on the organs of respiration. Acute pain in the chest and a choking cough are reported as the main symptoms of the fog-horne affliction.

Science has isolated the plague bacillus, and inoculations are now given in India and other oriental countries whenever there is fear that the scourge may be recurring. Science will doubtless solve the problem of this new mystery of death, and build more or less effective defenses against it. Its sudden and inexplicable appearance, shrouded in vapors arising from the earth, stresses for thought and imagination the unknown perils which still lie in the laboratory of nature. Man is at her mercy. He has checked and controlled her at many points, but her resources are beyond the compass of his foresight; nor can he ever be sure that in his attempts to correct her ways and to use her wealth and power for his own good he is not provoking her to new and initial surprises of activity.

Static Stopped Radio Cooking

Interesting Demonstration By Electric Wizard Fails At Critical Moment

Radio cooking static made its first public appearance in New York recently.

It interfered with popping a bag of corn in the presence of 1,200 diners at a luncheon of the New York Merchants' Association.

Just before the luncheon the radio cookery was working perfectly under the direction of General Electric Company wizards. A test paper sack of corn placed between two jars of ice water to make sure there was no warmth in the air, popped perfectly by the heat generated within the kernels by radio.

But at the luncheon in the expectant hush of the audience something went wrong. It was just what might be expected of static. No corn popped.

Frozen Light, one of the queer new discoveries of science, also was exhibited and worked perfectly.

This light was frozen into the surface of a mineral screen at Schenectady and brought to New York in a bottle of liquid air at 312 degrees below zero.

The screen, lifted up before the diners in darkness, was at first just a black dot. But as it thawed its face burst into all the colors of the rainbow, which chased each other across the surface in luminous billows.

A Striking Phrase

Sir Robert Borden Uses Striking Sentence At Meeting Of League Of Nations

A phrase used by Sir Robert Borden, Canadian delegate to the first meeting of the League of Nations assembly, was repeated in the British House of Commons by Hugh Dalton, under-secretary for foreign affairs. One of the most striking phrases used at Geneva during the debate was that of Sir Robert who, returning after a 12 years' absence, looked around him and said: "The nations seem all to have renounced war, but they have not yet renounced armaments."

"That went to the root of the matter," Mr. Dalton added.

Manitoba Egg Laying Contest

White Wyandottes owned by W. T. Shaw, of Brandon, led the Manitoba egg laying contest at the Brandon experimental farm at the end of the third week. This pen led for both total and weekly production, the total being 84.1 points and 92 eggs.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER VII.—Continued.

Later, as they walked back to Elm Street, Nick pushing the go-cart, and Simcoe holding the umbrella, Nick said: "I wish you'd take Gay home with you, Uncle Sim. She's not herself. I can't help feeling worried. The other night—" He paused for a moment, while the old man watched him from beneath half-closed lids. "She—she got upset by—" Well, our next door neighbor was singing. I suppose the music stirred Gay up. It was rather that sort, and she was feeling particularly tired. When we went inside she—she—I thought she'd never stop. I was scared blue. It didn't seem quite natural for a mere song to upset her as much as that."

"Did it upset you, boy?" questioned Simcoe, his eyes still on Nick's face.

Nick laughed, a short, nervous laugh, and answered: "Well, perhaps it did—a little. I was feeling restless anyhow. It had been a hot day, and the apple blossoms smelled so sweet and—"

"You got pain for that broad highway you used to talk about?" queried the old man.

A guilty smile hovered on Nick's lips.

"Only for a few minutes, sir. It's not often I think about it these days; but that night—"

"M-m," murmured Simcoe. "Your wife knows you pretty well, don't she?"

Nick raised surprised eyes.

"Why, of course. Who should know me, if not Gay?"

"No one so true I know. But isn't it possible that she won't so much upset by the music, as she was by knowing that the music had upset you?"

Nick stood stock still.

"Why—it—it never occurred to me," he said.

"Well, if you was to ask my advice, I'd say maybe you better think about that side of it. 'Taint every man's got that wife like Gay."

"I'll go to one better there, Uncle Sim," said Nick heartily. "I'm the only man in the world with a wife like Gay. The Lord never made a double."

But she needs a change. I've known it for some time. Since Jane Maxwell married and left town Gay's been lonely. I'd hoped our new neighbors would supply the want, but she and Mrs. Halliday don't seem to hit it off very well."

"What ails Mrs. Halliday?" asked Uncle Sim, and Nick laughed at the old man's assumption that the fault couldn't possibly be Gay's.

"Nothing, that I can see. It was she talking with me at the bank when you came in—a pretty little woman in a blue gown. She always wears blue—says it matches her eyes. Pretty eyes, too—trusting, innocent variety. Gay says they're too innocent, but I think she doesn't do the woman justice."

"She got any taller?" asked the old man suddenly.

"Yes—a cynical outlier about twice her age."

"Maybe those innocent blue eyes is what made him cynical," chuckled Simcoe Bartlett. "Seems like I've heard o' such things sometimes havin' effect. Well, here we be. You set that ice cream in the coldest spot you can find, and I'll be to Sonny. 'Bleve I'm hungry. Don't have time for no proper breakfast before I started."

During the meal that followed, and despite Uncle Sim's warning, Gay had a batch of the corn souffles she knew he liked, the question of the visit to State Line was broached again.

"You've got to go, dear," said Nick firmly. "I'll do you a world of good, and I'll come for Sundays. It will be a wonderful excuse for me to get away myself."

"Will you come this Sunday?" asked Gay wistfully. She felt suddenly homesick at leaving him at all.

"It's Thursday now, my dear," Nick answered, smiling. "And you can't get off till tomorrow. I'll give you one week of freedom from my company. And you needn't worry about me, Gay. I told Mrs. Halliday I was sending you away, and she suggested my going with them on a trip some Sunday, so I'll be provided for."

"That's very kind of her," said Gay, but her voice was cold, and Nick, rising, went round the table to kiss her cheek.

"If you think," he said, "if you think for one minute that I prefer an auto trip with the Hallidays to a Sunday at Uncle Sim's with you and the kids, why haven't the sense I give you credit for. But it was kind of Mrs. Halliday to ask me. You must be fair to her, Gay. She just took pity on me. She says Halliday's like a lost soul when she's away."

"And then," said Uncle Sim, in a tactful effort to clear the atmosphere, "I suppose he sets him down and writes one o' them cynical stories that makes a man want to get out his razor and cut his throat. But Nick's right, dearie, you need a change o' scene; and I need company someh'n terrible. I got a good woman down' for me now, and you won't have to raise yer hand except to see to the babies; and if I'm not mistaken you'll find me some help there. You can stay as long as you want, and I won't argue you to stay a minute longer. As for Nick—maybe livin' in bachelor's hall for a spell will make him appreciate his blessin'."

Nick laughed.

"You bet it will! But I'll try not to mess things up too much, Gay. Don't let that worry you."

"She ain't goin' to let a darn thing worry her," announced Simcoe. "Say, Nick, I'm not goin' to drag them babies fully miles by train in this weather. Is there a man in this peckish town who'll carry us over in an automobile—no tin Lizzie, mind you, but something that'll go springy? If so I'll interview him this afternoon."

"San Hillan's got a good car. He's a good driver, too. I wouldn't trust my family to anybody's driving over those hills. You make him go slowly. Uncle Sim, he can speed all he wants on his way back. Good! I wish I were going with you!"

"M-m," muttered Simcoe, then glancing at Sonny he said softly: "Look, folks! that baby's asleep ever! his ice cream!"

It was true. Sonny's head had lopped forward, and his eyes were closed.

"That comes of skipping his morning nap," said Gay. "Poor little him! I'll carry him upstairs."

But Nick was ahead of her, lifting the boy gently.

"Put him in our bed," she whispered. "Baby's still sleeping in the nursery. Well," she added, as Nick left the room, "if Sonny sleeps a while I'll be free to do my packing. I've a pile of mending a mile high."

"Let it be," said Simcoe, "and mend it after you get off. Now if you'll carry the left-over victuals—that's one thing my old woman never let me do, Nick and me'll wash up these dishes. And then I'll go back down town with him and see about gettin' transportation. Gorry I feel like I've started out for foreign parts, tald a whole family along like this! Sometimes I wonder what I did do 'fore I had you and Nick to bother with."

Gay smiled. The old man's happiness at the thought of her visit was contagious.

"And I wonder how we'd manage without you to fall back on times like this. I wish we could repay you, Uncle Sim."

"What about all them Christmas and Thanksgiving's I've spent with you?" he said gently. "Guess you don't owe me nothin', Gay. Here, Nick, you tackle that dish pan and I'll wipe. If you're late back I'll make it right with the boss. And don't you get robbin' but crackers an' milk for supper, Gay. Nothin' tastes much better on a hot night, and it'll be good practice for Nick eatin' light. I don't b'leve he'll get him no roasts o' beef while you're off visitin'."

"I'll devour the left-overs," Nick answered, as he rolled up his sleeves, "and then patronize the village hush house. But you'll have to kill the fattest calf on Sundays, Uncle Sim. I shall have the appetite of a wolf."

"Now don't you go an' get all het up hurryin'," advised Simcoe, as he and Nick were departing for the heat of Main Street. "We don't need to start any special time; and my old woman used to say you did like to get out like rushin' round tryin' to get somewhere on schedule. Just you go slow an' easy like, and maybe I'll have a surprise for you come supper time."

This seems to be a day of surprises," Gay answered. "I'll try one and told me this morning that before noon I'd be preparing to desert my husband. I wouldn't have believed him. I don't feel quite right about it even now."

Nick smiled—put his hand beneath her chin—kissed her face and kissed her. He stepped outside, then came back to perform the rite again.

Simcoe beamed upon them.

"That's right," he said. "Better keep 'em" while the gods' good." And opening his huge umbrella he considerably turned his back.

(To Be Continued.)

Recipes For This Week

(By Betty Barclay)

CHOCOLATE BREAD Pudding

- 1 package chocolate flavored junket.
- 2 slices whole wheat bread — 1/4 inch thick.
- Butter.
- 1 pint milk.

Remove crust from bread, batter lightly and cut in small cubes. Divide the cubed bread among 4 dessert dishes and add a few seeded raisins. Prepare junket according to directions on package. Pour at once over bread. Let stand in warm room until firm—about 10 minutes. Then chill.

CINNAMON APPLES

- 1 junket tablet.
- 6 medium sized apples.
- 1 cup sugar.
- 1 teaspoon vanilla.
- 1 pint milk.
- 3 tablespoons red cinnamon candies.
- 1 tablespoon lemon juice.

Peel and core apples and place in baking pan. Make a syrup by boiling the sugar (except 3 tablespoons) in water (for the junket), water and cinnamon candies together for 5 minutes; add lemon juice. Pour syrup over apples and bake until tender, basting several times. Place apples in individual dishes, filling the center of each apple with syrup. When cooled, and the syrup has jellied, prepare junket according to directions on package and fill dishes. Let stand in a warm room until firm. Then chill.

Central Electric Station Industry

Generation of Electrical Energy For Public Use

Canada's central electric station industry—the generation or distribution of electrical energy for public use—has attained record proportions because of the wide distribution and accessibility of her abundant water power. In sections remote from water-power, abundant supplies of native fuels constitute potential sources of electricity.

Manitoba Silica

Deposits of silica sand, possibly suitable for glass manufacture, are found on the shores of Lake Winnipeg, Manitoba, as well as at Beauséjour, about 20 miles south of the lake.

Minard's Liniment For Frost Bite.

Electric Ear Detects Noise

Invention Will Be Invaluable In Locating Trouble On Machinery

An electric ear with which engineers hope to reduce noise by setting one sound to kill another sound has been demonstrated publicly for the first time at Pittsburgh.

This method of noise abatement consists merely in causing two sound waves to interfere. A big obstacle has been the human ear's inability to separate complex noises sufficiently for engineers to find out which one to set against the other.

The electric ear, it was announced, promises to overcome this handicap. Weighing 60 pounds, the size of a suitcase, its method of attaching to and "listening" to a noisy machine was demonstrated at the Westinghouse research laboratories by J. P. Foltz, Westinghouse inventor.

"In a somewhat different application it is also hoped that in the future this new portable ear may be used as an advanced fault-finder for airplane motors and propellers," said Foltz.

Remarkable Stars

Continuously Shooting Off Matter In All Directions Into Space

The most puzzling case of stars in the sky is that known as the Wolf-Rayet, so named because their peculiar character was discovered by the astronomers Wolf and Rayet at the Paris observatory in 1867. Observations carried out over a number of years by the Dominion Astrophysical Observatory, Victoria, B.C., have in part elucidated the mystery. These stars are continuously and violently shooting off matter in all directions into space. There is a constant stream of atoms travelling outward from the stars like a tremendous volcanic eruption over every part of the surface, some of the atoms reaching the terrific speed of 1,000 miles a second.

Preference For Dominions

British Government Gives a Preference To Tenders From Empire

It is the practice of British government departments in the case of contracts, to give a preference to tenders from the dominions and colonies, as compared with tenders from foreign countries, but only within reasonable limits. This was the reply of the financial secretary to the treasury, P. W. Fethwick-Lawrence, to a questioner in the British House of Commons, who asked whether any preference was exercised in favor of supplies from the Empire and Overseas possessions, even where such supplies were not the cheapest available.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will also relieve them against subsequent attack. And as it cures the inflammation it will usually stop the cough because it always the irritation in the throat. Try it and prove it.

Freezing Falls To Kill

Fish and many insects can be frozen without destroying life. Caterpillars, according to entomologists, regularly live after being frozen during the winter. One investigator froze the grubs of the species known as dandy-long-legs, until they would readily break, and those not broken survived. Fish have been frozen in solid ice without killing them.

Minard's Liniment Aids Sore Feet.

Price For Barclay and Wheat.

At the recent Royal Winter Fair at Toronto, W. Nesbitt, of Superior, Saskatchewan, won first prize with hardpan barley. Registered and seed prize with Marquis Wheat Registered.

There Should Be No Ugly Women!

There are 2 classes of women, (1) The beautiful, healthy and intelligent creature.

(2) Those pitiful ones who don't know how to make themselves beautiful. It is the duty of every woman to know the vital importance of Kreschen Sals to physical perfection and attraction. Kreschen Sals are a perfect blend of the six vital minerals which Nature endued, glands, blood, nerves and body organs must daily receive from food if they're to function correctly—and which are impossible to obtain in its age of modern cooking.

Get a bottle of Kreschen—and before the bottle is half empty your complexion should be gloriously smooth and clear. Kreschen clears blood of harmful acids and poisonous waste matter which cause blemishes, dark heads and pimples. Your wonderful new energy will surprise you—mind feels so keen and alert—no more washed-out feeling getting up in the morning.

Little Helps For This Week

"Walk worthy to thy kingdom and glory"—1 Thessalonians 2:12.

Let me not deem that I was made in vain. Or that my being was an accident! White, in working its sublime.

Not wished to be, to hinder would not. Each step uncounited in a storm of rain.

Hath its own mission, and is duly sent. To its own leaf or blade.

Even from a corner it is possible to spring up into heaven. Rise, therefore, and form thyself into a fashion worthy God; thou canst not do this, however, with gold and silver. An image like to God cannot be formed out of such materials as these.—Seneca.

Personal Balm is absolutely fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexion of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Soothingly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all who care for elegance and distinction.

Propose Goodwill Fight

Capt. Boyd, Trans-Atlantic Flyer, May Make Flight To South America

The Canadian Government is considering a proposal to send Captain J. E. Boyd, Toronto Trans-Atlantic aviator, on a goodwill flight to South America next spring, according to a news story appearing in the Montreal Gazette. The flight will coincide with the British Empire trade fair to be opened in Buenos Aires by the Prince of Wales, March 24.

The Gazette states further: "Although no definite decision was taken, it was explained that financial backing for the mission may be forthcoming. The many adventures of such a flight were recalled in the cabin of the liner. He broke his own track, found his own markets, and hauled coal by ox-team to Fort Benton, Montana, and other distant points. A cabin has been erected in Lethbridge, Alberta, by the National Parks of Canada Branch, Department of the Interior, to commemorate these events."

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

First Coal Mine In Alberta

Coal was first discovered in Alberta by Nicholas Sheran, who opened a mine in 1872 on the west bank of the cabin River. He broke his own track, found his own markets, and hauled coal by ox-team to Fort Benton, Montana, and other distant points. A cabin has been erected in Lethbridge, Alberta, by the National Parks of Canada Branch, Department of the Interior, to commemorate these events."

A cabin has been erected in Lethbridge, Alberta, by the National Parks of Canada Branch, Department of the Interior, to commemorate these events."

Coal was first discovered in Alberta by Nicholas Sheran, who opened a mine in 1872 on the west bank of the cabin River. He broke his own track, found his own markets, and hauled coal by ox-team to Fort Benton, Montana, and other distant points. A cabin has been erected in Lethbridge, Alberta, by the National Parks of Canada Branch, Department of the Interior, to commemorate these events."

Melvin Notes.

A few of the young people spent the week-end with Mr. and Mrs. Vetter at Three Hills.

Mr. and Mrs. Oscar Carlson, of Calgary, motored up and spent the week-end with Mr. C. G. Carlson.

A very pleasant evening was spent at the home of Mr. and Mrs. John Clark, when the neighbors enjoyed very much an evening of whist and games.

Mr. and Mrs. Leeson were entertained at a very pleasant whist-party at the home of Mr. and Mrs. Bruce Parker one evening last week.

A "Logging Bee" was formed by many of the men of this community on Monday. Things are looking up these days, and we hope to see the Hall going up soon.

A number of the young people attended the dance at Waterside School on Friday night and all say they had a most lively time. Miss Mildred Levagood is the teacher.

A very pleasant evening was spent at the home of August Krebs on Monday, where a number of friends gathered at a surprise party. The evening was spent in playing progressive five hundred, after which lunch was served.

The meeting of the Melvin "Go-Getters" on Saturday night was well-attended. The social hour was in the capable hands of Edgar Wiggins, after which the sports committee took charge of the indoor games. Mr. and Mrs. Elmer Cowitz take charge of the social hour next Saturday night. Everybody welcome. Hours: 8 to 11 p.m.

The Melvin "Go-Getters" held a business meeting at August Krebs's on January 21st. They decided to hold a "Hard-Times" dance on February 8th, a box-social and dance on February 27th; a play and dance on March 20th, and a dance on April 3rd. After the meeting, the rest of the evening was spent in playing cards.

If your Radio needs repairing or modernizing, call at the Pioneer Office. E. A. Ahlin is an expert on battery sets.

Mountain View Notes

Mr. Hugh Roberts was a visitor to the southern city last Thursday.

The annual meeting of the local U.F.A. was held on Monday at Community Hall.

The lack of snow still allows the men to haul loads of lumber from the north and west.

Mrs. A. Nisbet, and son Walter were visitors at the home of Mrs. B. A. Atkinson last Wednesday.

Mrs. H. Atkinson returned home on Saturday accompanied by her son, Eric, after having spent last week in Red Deer.

Signs of spring are evident in many cases, and one resident of this district reported having seen a chickling hen when at Bowden a week ago.

We all feel sorry for our friend Mr. Jack Rubin, who continues to wear his snow white coat, which doesn't correspond to his earthy surroundings, and thus, he's an easy target for both man or dog.

BAPTIST CHURCH—WESTCOTT

Rev. J. H. Curtis regrets that he will be unable to hold a service in Westcott Church on the evening of Sunday, February 1st.

Burnside Notes

Wedding bells are ringing in this district.

Mrs. Glen Fulkert spent last week at her old home here.

Mr. Gus Bittner leaves the latter part of this week for Westaskwin, to occupy his farm there.

Mr. James McCulloch spent last week in Calgary attending the U.F.A. annual convention as delegate from Burnside.

Mr. Percy Saunders is spending this week in Edmonton with his brother, George, who is taking treatment there.

Lone Pine Women's Institute meets on Thursday February 5th at Mrs. C. R. Liesemer's, and all the ladies in the district are cordially invited to attend.

Community Club holds its meetings each Tuesday evening, and we have a jolly social evening. There were over one hundred present this week, and the attendance is steadily growing.

The annual meeting of Lone Pine Hall takes place on Wednesday evening, February 4th. After the meeting, a social hour will be spent, and lunch served. Everyone heartily invited.

There will be a concert and dance in Lone Pine Hall on Friday February 13th. The Women's Institute, assisted by Community Club, and various artists in the neighborhood are sponsoring this affair. Keep the date in mind.

Westcott Notes.

Miss Connie Hoesgood, was a guest at the home of Miss Dorothy Webster, over the week-end.

Mrs. R. Webster, has an early start in chicken raising, she already has a brood of baby chicks.

A large crowd took in the skating party and winter roast, at the bridge, on Saturday night. Many report an enjoyable time.

On Friday evening January 23, the Westcott Musical and Literary Society held their monthly meeting at the Westcott school under the supervision of Mr. E. Klinek. A very good program was presented after which Rev. H. E. Roppel showed a series of excellent lantern slides.

WEDDING

THOMPSON—NELSON.

A very quiet but pretty wedding took place on Monday evening Jan. 19th at the Nazarene Parsonage in Calgary, when Elsie Mary, daughter of Mr. and Mrs. Eric Nelson of Didsbury became the bride of Mr. Floyd Thompson, Calgary. The Rev. Thompson officiated.

A reception was held at the home of the bride's parents on Friday evening. Only the relatives were present. The happy couple are now residing in Calgary.

Egg Prices Have Reached Bottom

It appears that with the price declines of the present week, the egg market has touched bottom, says a report issued today by the egg and poultry marketing service of the Dominion department of agriculture. From most markets advices were received over the week-end, that buying is becoming more active and that demand is commencing to catch up with the supplies.

It is not probable the immediate future will see any sharp upward advance in prices, continues the government report. Stocks in the country, both of fresh and storage eggs, appear to be sufficient to take care of requirements for the present. But the apparent assurance that, at least, the steady price declines of recent weeks are at an end will be welcome to all producers and distributors.
